#### INTRODUCTION

The registrant has submitted a basic formulation CSF as a replacement for the previous basic formulation CSF (dated 11-11-85). The registrant also requested that the alternate formulation CSF's dated 10-06-94, 08-17-95, and 02-22-96 are outdated and canceled. As necessary the registrant will resubmit updated alternate formulation CSFs.

#### SUMMARY OF FINDINGS

1. The subject product contains Permethrin [REDACTED] as the active ingredient with product label claim of 0.50%.
2. All the inert ingredients used in the formulation are cleared by the Agency.
3. In the letter dated October 20, 1999, the registrant referred to the previous basic formulation CSF dated June 15, 1988 which is outdated. Along with this submission, the PM attached the basic formulation CSF dated 11-11-85.

CONCLUSION:

The TRB has reviewed the basic formulation CSF submitted for the subject product and has concluded that:

1. The basic formulation CSF (dated 10-20-99) is filled out correctly and completely in compliance with PR Notice 91-2 and agree with the label claim nominal concentration and is acceptable. This CSF supercedes the previous basic formulation CSF dated 11-11-85 (or June 15, 1988).

2. The action has been taken for the cancellation of three alternate formulation CSFs dated 10-06-94, 08-17-95, and 02-22-96.
